Lack of a telephone due to financial reasons	0.2	0.3	0.4	0.2	0.3	0.2	.	0.2	0.1	.	0.0	.

Notes:

• The "Life in Europe" survey (EU-SILC), which was previously conducted separately, was integrated into the micro census as a sub-sample in 2020. Due to the change from a voluntary survey to a survey requiring information in part, combined with a new sample composition, it is not possible to compare the data of the survey year 2020 with previous years (break in time series).

• Self-assessment of households.

• 2020 final results, 2021 initial results (provisional).

Explanation of symbols:

. = numerical value unknown or not to be disclosed.
